

# NEMSIS V3 Suggested List – eSituation.09 - Primary Symptom

---

## Date

November 17, 2011 (FINAL)

December 05, 2011 (Updated-FINAL)

June 04, 2012 (Updated Pattern-FINAL)

May 09, 2013 (Updated List-FINAL)

June 5, 2013 (Updated table with explanation)

## Authors

Karen E. Jacobson – NEMSIS Director

NASEMSO Data Managers Council

Lana Moser – NEMSIS Information Coordinator

Keith R. Davis – NEMSIS Data Architect

N. Clay Mann – NEMSIS P.I.

## eSituation.09 - Primary Symptom

The code list associated with eSituation.09 (Primary Symptom) represents a range of values found in the 10<sup>th</sup> revision of the International Classification of Diseases – Clinical Modification (CD-10-CM). The process for gaining access to the ICD-10 CM code values is provided below.

## Suggested List

The suggested code range for eSituation.09 (Primary Symptom) is represented in ICD-10-CM. Signs and Symptoms are contained throughout the ICD-10-CM list. The primary documentation for symptom should be based on the “general” list of R Codes.

The acceptable ICD-10-CM code ranges for Symptoms include:

- Symptoms, Signs and Ill-defined and Unknown Cause of Mortality (R00.0-R69, R73.9, and R99)
- A-Q, S, T, and Z.

The specific 152 suggested ICD-10-CM coeds are listed at the end of this document, beginning on page four. The suggested code list for the symptom description includes multiple columns including an “Explanation of Inclusion or Clarification” which may provide additional information related to the code description. The symptom suggested list information now contains Category and Sub-Category columns based in part on the ICD-10-CM sections. These hierarchies have been created to provide categories for the multiple symptoms available within the ICD-10-CM and NEMSIS Version 3 dataset.

The other ICD-10-CM R codes, not listed in the range above, will not be utilized in the NEMSIS Version 3 dataset as they do not pertain to EMS in the traditional pre-hospital (911) environment.

## **Licensed “Suggested Lists”**

The U.S. National Library of Medicine provides access to the RxNorm code values through the Unified Medical Language System (UMLS). An applicant must accept the terms of the UMLS Metathesaurus License and create a UMLS Terminology Services (UTS) account for access to UMLS datasets and terminology browsers.

More information can be found at: <http://www.nlm.nih.gov/databases/umls.html>.

The NEMSIS TAC may only distribute suggested lists with specific value codes from the UMLS system to entities licensed through the UMLS system. Thus, each software developer must seek licensing and provide proof of licensing before gaining access to all of the pre-defined suggested lists available through the NEMSIS TAC.

## **Access to “Suggested List” Archive Files**

Access to suggested code lists will be provided on a special section of the NEMSIS TAC’s SharePoint site. A licensed user will be able to login to the SharePoint site and download the appropriate archive file (RxNorm, ICD-10-CM, etc).

The UMLS license verification service helps determine if the remote user has a license to use and/or distribute certain code sets. If the user does not have a current license, access to the “suggested lists” archive will be denied.

The “suggested list” files will be zipped archives that are automatically created each time one of the licensed code databases is updated in the NEMSIS master data repository.

## **Viewing and Using the “Suggested List” Archive Files**

The downloaded suggested list appears in a pipe-delimited text format. The proper code to utilize is the code with the name of the element and closest to the value description. Please note that the CUI, AUI, and TTY fields are included for reference purposes. These codes allow one to locate the exact code and description in the UMLS Metathesaurus that was selected for inclusion in the suggested list.

The list provides additional fields indicating when a record became active in the NEMSIS TAC’s master data repository as well as the version of the source used for a particular code and description in the suggested list.

## Conclusions

By maintaining a single source of these data and making it available internally as well as to our customers, we improve our data quality and consistency. This will reduce reporting errors in data submissions provided it is used as part of our own and our customer's data management best practices.

## Unified Medical language System (UMLS) Term Types (TTY)

This is a partial list of Term Types in Source (TTY) from the National Library of Medicine website. The NEMSIS TAC will be using primarily the designated preferred name (PT) and occasionally the hierarchical term (HT) Term Types in its suggested lists. To view the full list of UMLS abbreviations used in data element please visit the National Library of Medicine website: [http://www.nlm.nih.gov/research/umls/knowledge\\_sources/metathesaurus/release/abbreviations.html](http://www.nlm.nih.gov/research/umls/knowledge_sources/metathesaurus/release/abbreviations.html) .

TTY (Term Type in Source)	
DN	Display Name
DO	Domain
ET	Entry term
HC	Hierarchical class
HD	Hierarchical descriptor
HT	Hierarchical term
LT	Lower Level Term
PT	Designated preferred name
RT	Designated related term

## ICD-10-CM Suggested List for eSituation.09 Primary Symptom

The suggested ICD-10-CM Symptom descriptions listed below are in alphabetical order based on the ICD-10-CM code. Please note the associated Symptom Category and Sub-Category. The Symptoms excel spreadsheet is separated into three worksheets where the suggested list is ordered by 1) ICD-10-CM Code; 2) Symptom Category and then Sub-Category; and 3) **Example EMS Descriptor**. The “**Example EMS Descriptor**” column contains possible recommendation(s) by the NEMSIS TAC for use by EMS Software Companies, State EMS Offices, EMS Agencies, and EMS professionals.

Please note: the descriptors in italics in the “**Example EMS Descriptor**” column have the same descriptions as the ICD-10-CM code description.

The June 5 2013 update provides the columns to the right in a light red background to identify examples EMS friendly vocabulary and options for training purposes. The “**Example EMS Descriptor**” column includes terminology that may be used by the EMS community in place of the official health care data standard description. Please note neither the official code nor description has been changed. The backend code and description remain that of the health care data standard for the element. This is true at the NEMSIS TAC and for EMS software development companies and their products. The EMS terminology is derived from the health care data standard and has not changed the meaning of the description. Where possible a data standard synonym is used. This information may be used for EMS training purposes or implemented in the EMS software used by EMS.

## ICD-10-CM Suggested List for eSituation.09 Primary Symptom

	TTY Code	ICD-10-CM Code	ICD-10-CM Description	NEMSIS V3 - Symptom Explanation of Inclusion or Clarification SYN: The ICD-10-CM synonym for the description. Clar: A clarification for code inclusion and/or intended use.	NEMSIS Version 3 - Symptom Example EMS Descriptor	Symptom Category	Symptom Sub-Category
1	PT	E66.3	Overweight		Overweight	Weight / Food Intake	Weight, excess
2	HT	G40.3	Generalized idiopathic epilepsy and epileptic syndromes	SYN: Grand mal seizure NOS; Petit mal seizure NOS.	Seizure: Absence, Partial, Grand Mal (Tonic/Clonic)	Convulsion/Seizure	Seizure
3	PT	G44.53	Primary thunderclap headache	Clar: Headache with sudden onset and severe pain.	Primary thunderclap headache	Episodic Disorders	Headache
4	PT	G47.00	Insomnia, unspecified	SYN: Insomnia NOS.	Insomnia	Episodic Disorders	Insomnia
5	HT	G81	Hemiplegia and hemiparesis		Hemiplegia and hemiparesis	Paralytic Syndromes	Hemiplegia and Hemiparesis
6	HT	G81.9	Hemiplegia, unspecified		Hemiplegia	Paralytic Syndromes	Hemiplegia
7	HT	G82.2	Paraplegia		Paraplegia	Paralytic Syndromes	Paraplegia
8	PT	G83.10	Monoplegia of lower limb affecting unspecified side		Monoplegia (1); or Paralysis of one lower limb (2)	Paralytic Syndromes	Monoplegia
9	HT	H53.14	Visual discomfort	SYN: Photophobia.	Visual Discomfort / Photophobia	Head	Eye
10	PT	H53.9	Unspecified visual disturbance		Visual Disturbance	Head	Eye
11	PT	H54.7	Unspecified visual loss		Visual Loss	Head	Eye
12	PT	H57.10	Ocular pain, unspecified eye		Pain, Eye	Pain	Pain, Head
13	PT	H91.90	Unspecified hearing loss, unspecified ear		Hearing Loss, unspecified ear	Head	Ear
14	PT	H92.09	Otalgia, unspecified ear		Pain, Ear	Pain	Pain, Head
15	HT	J02	Acute pharyngitis	SYN: Acute sore throat.	Acute Sore Throat	Respiratory	Throat
16	PT	K08.8	Other specified disorders of teeth and supporting structures	SYN: Toothache NOS.	Toothache	Head	Tooth

	TTY Code	ICD-10-CM Code	ICD-10-CM Description	NEMESIS V3 - Symptom Explanation of Inclusion or Clarification	NEMESIS Version 3 - Symptom Example EMS Descriptor	Symptom Category	Symptom Sub-Category
17	PT	K59.00	Constipation, unspecified		Constipation	Digestive	Bowel
18	PT	K92.0	Hematemesis		<i>Hematemesis (1); or Vomiting, blood (2)</i>	Digestive	N & V
19	PT	L29.9	Pruritus, unspecified	SYN: Itch NOS.	Itching	Skin	Skin Sensation
20	HT	L50	Urticaria		Hives	Skin	Skin Color Changes
21	PT	M54.9	Dorsalgia, unspecified	SYN: Back pain NOS; Backache NOS.	Pain, Back	Pain	Pain, Back
22	HT	N48.3	Priapism	SYN: Painful erection.	<i>Priapism</i>	Genitourinary System	Male
23	PT	N92.6	Irregular menstruation, unspecified		Irregular menstruation	Genitourinary System	Female
24	PT	N93.9	Abnormal uterine and vaginal bleeding, unspecified		Vaginal Bleeding and Abnormal Urine	Genitourinary System	Female
25	HT	O47	False labor	SYN: Braxton Hicks contractions.	<i>False labor</i>	Childbirth	False Labor
26	PT	R00.2	Palpitations		<i>Palpitations</i>	Circulatory	Cardiac Arrhythmias
27	PT	R04.0	Epistaxis	SYN: Nosebleed.	<i>Epistaxis</i>	Respiratory	Respiratory Hemorrhage
28	PT	R04.2	Hemoptysis	SYN: Cough with hemorrhage; Blood-stained sputum.	Blood in sputum	Respiratory	Respiratory Hemorrhage
29	PT	R05	Cough		<i>Cough</i>	Respiratory	Cough
30	PT	R06.00	Dyspnea, unspecified	Clar: This includes Paroxysmal nocturnal dyspnea.	Dyspnea	Respiratory	Breathing Difficulties
31	PT	R06.01	Orthopnea	Clar: Difficulty breathing while lying flat.	Dyspnea while lying flat	Respiratory	Breathing Difficulties
32	PT	R06.02	Shortness of breath		<i>Shortness of breath</i>	Respiratory	Breathing Difficulties
33	PT	R06.1	Stridor		<i>Stridor</i>	Respiratory	Breathing Abnormalities
