## Data Element Comment

This is the diagnosis or reason for transfer, or medical transport or Integrated Healthcare Encounter provided by the ordering physician or medical provider. Hospital-to-hospital transfers and medical transports are based on the ordering medical provider, and not the EMS provider's impression. The text of the reason or diagnosis would be entered here rather than using the patient complaint field (as the patient may still have complaints to document), eSituation.11 Provider's Primary Impression or eSituation.12 Provider's Secondary Impressions.

This element should only be documented when eResponse.05 Type of Service Requested is Hospital-to-Hospital Transfer, Other Medical Needs Transport, Mobile Integrated Health Care Evaluation or Visit.

## Version 3 Changes Implemented

This element is being added with the release of v3.5.0
