NEMSIS V3 Demographic (Agency) Dataset Submission Requirements

Date
November 17, 2011 (FINAL)

Authors
Karen E. Jacobson – NEMSIS Director
N. Clay Mann – NEMSIS P.I.

NEMSIS Version 3.1.0 Demographic (Agency) Dataset Submission Requirements
The submission of the national elements of the NEMSIS Version 3.1.0 Demographic (Agency) Dataset is based on four primary categories of submission: 1) With every EMS XML file; 2) Initially, annually, and as updated; 3) An annual submission of Annual Statistics; and 4) Submission of state specific elements to the NEMSIS National Database.

Every EMS XML File
Fourteen elements will be submitted in every (ePCR - Patient Care Record) EMS XML File. This includes all EMS responses, regardless of patient contact. These elements are listed below in green shading. In addition, these elements will also be submitted prior to the first submission from an agency to a state, annually, and as updates occur within the agency. Additional work is underway to define best practices for the addition of this information in every XML file.

Initially, Annually, and As Updated
Eleven elements will be submitted by the EMS Agency to the State (and the State to the NEMSIS National Database) prior to any v3.1.0 EMS XML file submission. This will provide the state and NEMSIS with an "initial" baseline information for the EMS agency. As the data changes for each of these elements (i.e., is updated) the elements shall be submitted to the state. A date stamp attribute (Current Status) exists for the section of elements to allow the associated EMS XML records to be identified as "Active" and "Inactive" based on a given date and time in which the information is valid. Additionally, these data will be submitted annually and as updated throughout the year.

Annual Statistics
Seven elements make up the annual statistics for an EMS Agency (identified by dAgency.02). These data are to be submitted to the state and NEMSIS within the first six months of the following calendar year (e.g. 2012 statistics will be submitted between January - June 2013).

State to NEMSIS Database
Three elements will be submitted only by the State to the NEMSIS National Database. These elements are related to the procedures, medications, and protocols that a state may mandate (or suggest) that an EMS agency utilize. These elements will also be submitted initially, prior to the first submission to the NEMSIS National Database, annually, and as updated throughout the year.

NEMSIS Version 3.1.0 Demographic (Agency) Dataset Submission Requirements

V3.1.0 Element Number	V3.1.0 Element Title	Submission Requirements
dAgency.01	EMS Agency Unique State ID	Every EMS XML File
dAgency.02	EMS Agency Number	Every EMS XML File
dAgency.04	EMS Agency State	Every EMS XML File
dAgency.05	EMS Agency Service Area States	Initially, Annually, and As Updated
dAgency.06	EMS Agency Service Area County(s)	Every EMS XML File
dAgency.07	EMS Agency Census Tracts	Initially, Annually, and As Updated
dAgency.08	EMS Agency Service Area ZIP Codes	Initially, Annually, and As Updated
dAgency.09	Primary Type of Service	Every EMS XML File
dAgency.11	Level of Service	Every EMS XML File
dAgency.12	Organization Status	Every EMS XML File
dAgency.13	Organizational Type	Every EMS XML File
dAgency.14	EMS Agency Organizational Tax Status	Initially, Annually, and As Updated
dAgency.15	Statistical Calendar Year	Annual Statistics
dAgency.16	Total Primary Service Area Size	Annual Statistics
dAgency.17	Total Service Area Population	Annual Statistics
dAgency.18	911 EMS Call Center Volume per Year	Annual Statistics
dAgency.19	EMS Dispatch Volume per Year	Annual Statistics
dAgency.20	EMS Patient Transport Volume per Year	Annual Statistics
dAgency.21	EMS Patient Contact Volume per Year	Annual Statistics
dAgency.25	National Provider Identifier	Every EMS XML File
dAgency.26	Fire Department ID Number	Initially, Annually, and As Updated
dConfiguration.01	State Associated with the Certification/Licensure Levels	Initially, Annually, and As Updated
dConfiguration.02	State Certification Licensure Levels	Initially, Annually, and As Updated
dConfiguration.03	Procedures Permitted by the State	State to NEMSIS Database - Initially, Annually, and As Updated -
dConfiguration.04	Medications Permitted by the State	State to NEMSIS Database - Initially, Annually, and As Updated -
dConfiguration.05	Protocols Permitted by the State	State to NEMSIS Database - Initially, Annually, and As Updated -
dConfiguration.06	EMS Certification Levels Permitted to Perform Each Procedure	Every EMS XML File
dConfiguration.07	EMS Agency Procedures	Every EMS XML File
dConfiguration.08	EMS Certification Levels Permitted to Administer Each Medication	Every EMS XML File
dConfiguration.09	EMS Agency Medications	Every EMS XML File
dConfiguration.10	EMS Agency Protocols	Every EMS XML File
dConfiguration.11	EMS Agency Specialty Service Capability	Initially, Annually, and As Updated
dConfiguration.13	Emergency Medical Dispatch (EMD) Provided to EMS Agency Service Area	Initially, Annually, and As Updated
dConfiguration.15	Patient Monitoring Capability(s)	Initially, Annually, and As Updated
dConfiguration.16	Crew Call Sign	Initially, Annually, and As Updated
